Students Achieving Success Program

2023/2024 School Year

Team Scott Inspire presents the "Students Achieving Success" program. During the school calendar year, students facing adversity in grades 9th - 12th are invited to an outreach "lunch and learn" session. Each session provides a different motivational topic as well as a format to help them develop life skills and experience educational and vocational opportunities in the community. Our goal is to connect with the students to provide positive community support encouraging them to graduate high school despite their current situation.

All Sessions will be held at
Members 1st Federal Credit Union
